## BLUE GLASS NOTES.

Blue glass slippers cure corns.  
Blue glass pills are not good for chapped hands.

Blue glass neckties are all the rage in New York.

Cinderella's sisters were blue because she wore glass slippers.

A blue glass coffin will never make up for a mis-spent life.

Gen. Pleasanton's discovery bids fair to cure every one of the blues.

Onions raised under blue glass have a soft radiance like unto the perfume of violets.

Pounded blue glass and corn meal are good for the Long Island liver complaint.

When Music, Heavenly Maid, was young, such foolishness as blue glass was then unknown.

New York is the poorest illuminated city of its size in the world, and yet it is lighted with blue glass.

Blue glass chronometers are not so attractive as a yellow dog; dangling at the end of a stout rope.

Square pieces of blue glass weighing six pounds each may be used for dispersing a cluster of tom cats.

A New Jersey poultry man fed his roosters on pulverized blue glass until the birds crowded so loud that his well caved in.

A great trade has sprung up in San Francisco. All the glass factories are busy making little blue glass gods for the Chinamen.

Nothing will blast the sweet bud of love so quickly as to tell your heart's image that her diamonds are made of 18 carat blue glass.

A Newark man set a hen on blue glass eggs. The next day she came off the nest with 48 chickens, and every one of them a rooster.

Put a peck of Jersey mosquitoes under blue glass and in two days you will have spring chickens large enough for the New York boarding houses.

The electric properties of blue glass combs are wonderful. The blindest heads may be made to blossom as the rose with assorted hair after a few applications.

The New York belles wear thin plates of malleable blue glass in their shoes, which insulates them so that they can withstand the electric shocks caused by the too ardent glances of their lovers.

A Kentucky man who had been discussing the products of Bourbon county with a neighbor, raised his hat to his deceased partner's wife, and hoarsely murmured, "Huzrah for the blue glass widows."

## Words of Wisdom.

The following, clipped from an exchange, will bear reading and a careful consideration:

Better to wear a calico dress without trimming, if it be paid for, than to owe the shop-keeper for the most elegant silk, cut and trimmed in the most bewitching manner.

Better to live in a log cabin all your own than a brown-stone mansion belonging to somebody else.

Better walk forever than run into debt for a horse and carriage.

Better to sit by the pine table for which you paid three dollars ten years ago than send home a new extension black walnut top, and promise to pay next week.

Better to use oil cane seated chairs and faded two ply carpet than tremble at the bills sent home from the upholsterer's for the most elegant parlor set ever made.

Better to meet your business acquaintance with a free "don't owe you a cent" smile than to dodge around the corner to escape a dun.

Better to pay the street organ-grinder two cents for music, if you must have it, than owe for a grand piano.

Better to eat thin soup from earthenware, if you owe your butcher nothing, than to dine off lamb and roast beef and know that it does not belong to you.

Better to let your wife have a fit of hysterics than run in debt for nice new furniture, or clothes, or jewelry.

**A SHIP IN STRANGE COMPANY.**—There are a few cases on record where sailing vessels have been followed for many hundreds of miles by isolated whales, but the recent experience of the British ship *Fleur-de-Lis*, Captain Reis master, which arrived yesterday from Adrossan, is probably without recorded precedent. The memorandum shows that from Station Land, which lies to the east of Cape Horn, to this coast, she has been constantly surrounded by a school of whales. These leviathans of the deep stuck by the vessel through fair and foul weather, and did not abandon her until she arrived off this coast and made for port.—*S. F. Bulletin*, 10th.

This city of New York has 489 churches, chapels, and missions, 418 Sabbath-schools, and 500 day schools. But it also has 8,403 liquor saloons, and that is about the gait three things travel throughout the country.

## BOARD OF PARDONS.

Of an interesting meeting of the Board of Pardons we find in the Carson Appeal of Tuesday, the subjoined proceedings.

Governor Bradley having returned from San Francisco, there was a meeting of the Board of Pardons, yesterday. All the members were present. The applications and communications were quite numerous. The applications of George O'Connor and John Chester to be restored to citizenship after the expiration of their terms were favorably considered and the prayer was granted. John Rooney's application for restoration was denied. John has been rather a refractory patient. He has been once in the dung on for fighting and once for stealing rations. Also it is related of John that once when he had served out a term of imprisonment, he having got an order for clothes, and having reported that the store upon which the order was given could not fill the bill, was given an order upon another store, whereupon he used them both, greatly to the replenishment of his wardrobe and the swindling of the State. So Mrs. Rooney's boy will not get himself restored to the full dignity of American citizenship. The following applications for pardon were rejected: Chris Blair, Bernard J. Cosgrove, Andrew Johnson, Jackson Harrison and Pat Huley. Cosgrove is the wretch who cowed and with premeditation stabbed to death the poor girl at Elko—inflicting no less than sixty wounds upon her. Pat Huley is the brother of a boy whose exploits in the world of crime render his asking for pardon a very spicy joke. Wm. King, having already made application within the year, is therefore barred from a hearing before July next. In the case of Duke, Attorney General Kittredge is requested to make on the papers bearing upon his prayer for pardon, commutation, &c. A great number of letters was read and it being evident that the prisoners as a rule are ignorant of the requirements of the law regulating the applications for pardon, the Board have taken steps to have a statement, in brief, of the form prescribed by statute for such a procedure. For the information of prisoners and such of their friends as contemplate applying for pardons, we make the following extract from the statute of February 20, 1875: "Any person intending to apply to have a fine or forfeiture remitted, or a pardon granted, or some one in his behalf, shall make out duplicate copies of notices in writing of such application, specifying therein the Court in which the judgment was rendered, the amount of the fine or forfeiture or kind or character of punishment, the name of the person in whose favor the application is to be made, the particular grounds upon which the application will be based, and the time when it will be presented, one of which he shall serve on the District Attorney and one on the District Judge for the county where the conviction was had; provided, in cases of fines and forfeitures a similar notice shall also be served as herein provided, at least thirty days prior to the presentation of the application, unless a member of the Board of Pardons, for good cause, prescribe a shorter time." Section five of this Act provides that "No notice shall be required of application to citizenship to take effect at the expiration of a term of imprisonment or for the commutation of the death penalty." By the observance of the foregoing, prisoners will see the uselessness of making applications for release from custody by letters written to the Board or any of their number. The order prescribed by the Statute must be observed.

The charge delivered by Judge Sawyer to the jury in the case of Barnes et al. vs. the California Mining Company is published in Wednesday's Enterprise. It is a most important document, and its publication will be welcomed by all lawyers and by almost all the business men of this region. The charge is a verbatim report, taken down by a phonographer as it was delivered, and is absolutely correct.

**THE PRISONER**—The Enterprise says it is confidently asserted by mining men that if times continue for sixty days more as they have been for the last thirty there will not be a mine on the Coast in which any work will be doing except those which are taking out ore enough to pay running expenses.

The Federal troops heretofore stationed around the South Carolina State House have been withdrawn. Gov. Chamberlain has surrendered his office to Hampton and issued an address to the Republicans of the State.

A DIVIDEND of \$1 per share has been declared by the Northern Belle Mining Company, payable on the 16th instant.

## MOST IMPORTANT ITEMS IN YESTERDAY'S DISPATCHES.

## Fearful Catastrophe.

St. Louis, Mo. April 11.—The most frightful calamity that has ever befallen St. Louis, took place at a very early hour this morning, involving the destruction of the Southern hotel by fire, and the loss of a large number of lives. The exact number cannot now be given; but it is feared that some forty or fifty perished, either by being burned directly, or first smothered by the smoke and then consumed.

The fire caught in the store-rooms in the basement, and was first seen coming through the ground floor just north of the office; and in ten minutes it had ascended the elevators and rotunda and spread itself over the sixth floor was occupied entirely by the employees of the hotel, the largest part of whom were women. The fire spread rapidly, filling every room and hall with flames and smoke, and the scene was one of the most terrible description. Frantic men, women and children ran through the halls shrieking in the most heart-rending manner in their wild and desperate efforts to escape. The smoke was so dense in some of the halls that the gas-jets were extinguished, which rendered egress to those most familar with the building a matter of great difficulty.

Chicago, April 11.—A dispatch from St. Louis estimates the killed at one hundred and twenty five, and says that forty bodies are at the morgue, and twenty have been recognized by friends and taken away. The hotel cost a million dollars at the beginning of the war. It was insured for \$22,000, and the furniture for \$200,000.

## Lee's Confession.

New York, April 11.—The Herald's Washington dispatch says: A strange sequel to the tragedy of Lee's execution, at Mountain Meadows, is contained in an official paper filed yesterday with the Department of Justice in Washington. This is no less than an affidavit of Edwin Gilman of Salt Lake. Lee was induced to make a confession to the United States District Attorney, on the promise that in return for such confession he should receive a reprieve and eventually a full pardon. This promise, Gilman alleges, was made to Lee by the District Attorney in furtherance of a plan to implicate, expose and punish all the Mormon leaders, from Brigham Young down, who were believed to be concerned in the Mountain Meadows massacre. Gilman alleges that he was engaged as a go-between by the District Attorney to make overtures to Lee for the confession and to promise an eventual immunity to Lee in consideration of the disclosures he should make. In his capacity of guard in the penitentiary at Beaver he had free access to the cell of Lee, and occupied quite a while in conducting the negotiations before a mutual understanding had been reached between Lee and the District Attorney. Gilman saw the confession of Lee, and it was essentially at variance with the one given to the public by the District Attorney.

The Herald further says editorially: "Of course the suspected officials deny the truth of all the statements charging them with collusion with the church authorities and suppressing evidence against Brigham Young and his chief priests. Yet a feeling of deep uneasiness pervades official circles, and protests of innocence are heard in Salt Lake. From the United States District Attorney the following telegram is addressed to the Herald:

SALT LAKE, April 9, 1877

J. G. Bennett; New York Herald. If one Gilman has made a statement regarding me, I inform you it is false. The Mormons have used and concealed him. Signed,

HOWARD,

U. S. District Attorney.

Desperate efforts are made to conceal the facts. The accused parties are believed to be capable of resorting to violence if necessary. It is therefore considered unsafe for any one knowing the details to utter a word regarding them in Utah Territory.

## River and Harbor Improvements.

New York, April 11.—A Washington special says: The President has authorized the expenditure of certain sums under the direction of the Chief Engineer of the Army for the improvement of rivers and harbors. This money is a portion of the suspended appropriation voted at the

first session of Congress. The total amount is \$904,000. The San Joaquin river has \$20,000. This leaves a balance of \$160,000 (?) to the credit of various improvements. Applications have been filed for allotments of the whole of the appropriations for Georgia, Alabama and Tennessee and will be reported shortly. The President desires to do justice to the works which are of general utility, but a number of jobs run through the bill and will be ignored.

## The Black Hills.

Chicago, April 11.—Colonel A. L. King, a gentleman of considerable mining experience, has just returned from the Black Hills. He says there are large quantities of quartz in the Deadwood region, and the ore is easily worked. The stamp-mill process is all that is required, and the cost of working, per ton, including mining, does not exceed five dollars. Colonel King is of the opinion that there are undeveloped ores in the Big Horn and Yellowstone country of greater wealth than are found in the mines as yet developed in the Black Hills, and that they are an extension of the deadwood belt. The placers which yielded \$2,000,000 last year despite of Indians and soldiers are only partially worked, and many discoveries have been made that will be worked this year if the Government protects the miners.

## Still a Prisoner.

New York, April 11.—Tweed still lies in jail because he has failed to make the promised unconditional surrender of his property and vouchers, some of which have already been exhibited, which confirm his confession of improper dealings with legislators, judges editors and others. His friends say he has lost possession of many of these vouchers, but if he fails to produce them he is likely to remain a perpetual prisoner, as placing them beyond his control was a violation of the compact agreed to when they were admitted to be in his hands.

## Friedlander's Creditors.

SAN FRANCISCO, April 11.—The creditors of Isaac Friedlander met to day to consider the situation of his affairs. Owing to a dispute as to the account of one of the principal creditors definite action was postponed until the question is decided, which will probably be this afternoon. But the compromise offered by Friedlander has been accepted by all the general creditors, and it is probable that united action will be taken to that effect, releasing him from his liabilities and enabling him to continue his business.

## At Peace.

COLUMBIA, S. C., April 21.—The papers and other property of the Executive office were transferred to Governor Hampton to-day, who is now in peaceful possession of the Statehouse.

## CHAMBERLAIN, OF SOUTH CAROLINA.

Quite unexpectedly Chamberlain, of South Carolina, has transferred the Executive office to Wade Hampton. A dispatch gives as the reason why he surrendered the Governorship so suddenly, inasmuch as he could have prolonged the dispute indefinitely, owing to the peculiar condition of the courts, and he has received much encouragement to do so; that he is was, brave and generous, and doubtless saw clearly that it would all avail nothing in the end, would ruin him personally, do damage to the State and perplex the President. He saw that, while the great mass of Republicans oppose this new Southern policy, they are willing to try the experiment. In this connection we publish his address upon retiring. A perusal of it will make for him friends:

"To the Republicans of South Carolina: By your choice I was made Governor of this State in 1874. In the election of last November I was again, by your votes, elected to the same office, and my title to the office, upon every legal and moral ground, is to-day clear and perfect. By the recent decision and action of the President of the United States I find myself unable longer to maintain my official rights with any prospect of final success, and I hereby announce to you that I am unwilling to prolong a struggle which can only bring further suffering to those who engage in it. In announcing this conclusion I deem it to be my duty to say for you that the Republicans of South Carolina entered upon this political struggle for the maintenance of their political and civil rights. Constituting, before a question, a large majority of the lawful voters of the State you allied yourselves with that political party who constant and inspiring principle has hitherto been the civil and political liberties of all men under the Constitution and laws of our country. By heroic efforts and sacrifices, which the just verdict of history will rescue from the cowardly scorn now cast upon you by political placemen and traders, you secured the electoral vote of South Carolina for Hayes and Wheeler. In accomplishing this result you became the

victims of every form of persecution and injury. From authentic evidence it is shown that no less than 800 of your number were murdered because they were faithful to their principles and exercising the rights solemnly guaranteed to them by the nation. You were denied employment, driven away from your homes, robbed of the earnings of years of honest industry, hunted for your lives like wild beasts, your families outraged and scattered, for no offense except your peaceful and firm determination to exercise your political rights. You trusted, as you had a right to trust, that if by such efforts you establish the lawful supremacy of your political party in this nation, the Government of the United States, in the discharge of its constitutional duty, would protect the lawful Government of the State from overthrow at the hands of your political enemies. From causes patent to all men, and questioned by none who regard the truth, you have been unable to overcome the unlawful combinations and obstacles which have opposed the practical supremacy of the Government which your votes have established. For many weary months you have waited for your deliverance. While the long struggle for the Presidency was in progress you were exhorted by every representative and organ of the National Republican party, to keep your allegiance true to that party in order that your deliverance from the hands of your oppressors might be certain and complete. Not the faintest whisper of a possibility of disappointment in these hopes and promises ever reached you while the struggle was pending. April 10, by order of the President, whom your votes alone rescued from overwhelming defeat, the Government of the United States abandons you and deliberately withdraws from you its support, with the full knowledge that the lawful Government of the State will be speedily overthrown. By a new interpretation of the Constitution of the United States, at variance alike with the previous practices of the Government and with the decision of the Supreme Court, the Executive of the United States evades the duty of ascertaining which of two rival State Governments is the lawful one, and by the withdrawal of the troops now protecting the State from domestic violence, abandons the lawful State Government to a struggle with an insurrectionary force too powerful to be resisted. The grounds of the policy upon which such action is depended are startling.

It is said that the North is weary of the long Southern troubles. It was weary, too, of the long troubles which sprang from the stupendous crime of slavery, and longed for repose. It sought to cover them from sight by wicked compromises with the wrong which disturbed its peace. But God held it to its duty till, through a conflict which racked and agonized the nation, the great crime was put away and freedom was ordained for all. It is said that if a majority of the people of the State are unable by physical force to maintain their rights they must be left to political servitude. Is this a doctrine ever before heard of in our history? If it shall prevail, its consequences will not long be confined to South Carolina and Louisiana.

It is said that a Democratic House of Representatives will refuse an appropriation for the army of the United States if the lawful Government of South Carolina is maintained by military force. The submission to such coercion marks the degeneracy of a political party or people which endures it. A Government worthy the name, a political party fit to wield power, never before blanched at such a threat. But the edict has gone forth. No arguments or considerations which your friends could present have sufficed to avert the disaster, no effective means of resistance to the consummation of the wrong are left. The struggle cannot be prolonged. My strict legal rights are of course wholly unaffected.

"By the action of the President no count of the State has jurisdiction to pass upon the title to my office: no lawful Legislature can be convened except upon my call. If the use of these powers promised ultimate success to our cause, I should not shrink from any sacrifices which might confront me. It is a cause in which, by the light of reason and conscience a man might well lay down his life. But to my mind, my present responsibility involves the consideration of the effect of my action upon those whose representative I am. I have hitherto been willing to ask you, Republicans of South Carolina, to risk all dangers and endure all hardships until relief should come from the Government of the United States. That relief will never come. I cannot ask you to follow me further. In my judgement I can no longer serve you by further resistance to the impending calamity. With gratitude to God for the measure of endurance with which he has hitherto inspired me; with gratitude to you for your boundless confidence; with profound admiration for your matchless fidelity to the cause in which we have struggled I now announce to you and to the people of the State, that I shall no longer actively assert my right to the office of Governor of South Carolina. The motives and purposes of the President of the United States in the policy which compels me to pursue my present course are unquestionably honorable and patriotic. I devoutly pray that events may vindicate the wisdom of his action, and that peace, justice and prosperity may hereafter be the portion of every citizen of South Carolina.

(signed) "D. H. CHAMBERLAIN, Governor of South Carolina."

A FRIENDLY WORD.

We offer no excuse for urging the

Odd Fellows of Western Nevada to

gather together in Reno to celebrate

the coming anniversary of the Order.

Since the last celebration in Reno

members of the Order have con-

structed a magnificent temple, and

the next anniversary day has been

selected as the most appropriate

time for dedicating it to the grand

principles of Friendship, Love and

Truth. In view of what the Reno

brethren have done they are not

unreasonable in expecting that their

Brothers will appreciate their work,

and give them the pleasure of their

company on the 26th, to witness the

imposing ceremonies intended to be

performed. The Odd Fellows

Virginia have generously waived

their rights for that day, and an-

nounced their intention of assisting

and co-operating with Reno. A

special train has been engaged to

bring them here and convey them

back. We feel that other Brothers

in this part of the State should emu-

late the example of the Virginia

Brothers. And we shall be very

much disappointed and chagrined

if they do not. Reno will treat all

who come in her best manner. We

will show you a grand procession,

treat you to some choice literary ex-

ercises, and give you such a "dance"

as will long be remembered. Our

accommodations are ample, and no

one need fear of not being able to

procure anything wished. We,

therefore, on behalf of Reno and her

Odd Fellows, extend a cordial invita-

tion to the outside public to "cele-

brate" here on the 26th. Don't

decline.

Black Jack Convicted.

Black Jack, of coast reputation as

a stage robber and burglar, was con-

victed in the Solano County Court

Monday on a charge of burglary in

robbing Wells, Fargo & Co.'s safe at

Second Assistant.

Bob Bancel has been elected 2d

Assistant of Reno Engine Co. The

selection is a good one. Bob is a

very careful and correct fireman.

AL. WHITE'S "tiger" is still to

room. Al. has fitted up the rooms

over Dallah's place, where the game

goes on. He will have a "sideboard"

so that the "beast" will be supplied

when thirsty.

Our markets are kept well sup-

plied with choice dainties. Sim-

mons, Cunningham and Salisbury &

Wetherill are receiving fresh sup-

plies every morning.

THERE is talk of another saloon.

Have to change the name of the town

pretty soon to Gin Mill.

PAINTING, repapering, gardening,

etc., is the order of the day.

lows' Ball.

This following is the law relative to

appointments in the Treasury De-

partment: "That, on and after Janu-

ary 1, 1876, the appointments of this

department shall be so arranged as

to be equally distributed between the

several States of the United States

and Territories, and the District of

Columbia, according to population."

Act approved March 3, 1875. The

above law Secretary Sherman will

rigidly enforce, and under it there

can at present be no appointment

from New England, New York, Penn-

sylvania, Ohio, Maryland, Delaware,

West Virginia, Arizona and the Dis-

trict of Columbia. The Secretary

will also insist that only one member

of a family shall be employed in the

Treasury Department.

EMPEROR WILLIAM declines to ac-

cept the resolution of Prince Bis-

marck, but grants him leave of ab-

sence.
